

HOW TO DIFFERENTIATE YOURSELF WITH SERVICE CONTROL FROM UNIVOIP

With UniVoIP's Service Control portal, partners and customers save incredible amounts of time thanks to our one-of-a-kind Automated Onboarding workflow.

WHAT IS SERVICE CONTROL?

UniVoIP's Service Control portal is a web-based, enterprise-grade management console that simplifies communications service management with real-time control and visibility. This all-in-one integrated billing system, onboarding portal, and single pane of glass management portal was developed around the idea of improving **ease of doing business**.

WHAT DOES THIS MEAN FOR YOUR CUSTOMERS?

Service Control changes the game for UniVoIP partners, but customers who choose to use the management portal independently stand to benefit as well:

- ✔ A single pane of glass for managing billing, onboarding, trouble tickets, and account profiles for UniVoIP solutions – whether that's Cloud Voice for Microsoft Teams, UCaaS, Contact Center, or anything in between.
- ✔ Automation means your customers can streamline their day-to-day tasks, making their jobs (and lives) easier.

WHAT DOES THIS MEAN FOR PARTNERS

With Service Control, partners can take care of invoices, open tickets, and configure voice services user profiles – and you can use Service Control to quickly create quotes.

- ✔ You'd have something no one else in the market has.
- ✔ You and your customers would have access to Automated Onboarding - in just 15 minutes, they'll be fully set up to make and receive calls natively within Microsoft Teams.
- ✔ You'd be the productivity and time savings champion for your clients!

THE UNIVOIP DIFFERENCE

We developed Service Control because our goal is to make it easy to do business with us, whether you're a partner or an end user.

With UniVoIP's Automated Onboarding, a process that once took weeks or even months can be done in 15 minutes or less.

Access to Service Control means the time partners and customers save becomes exponential.

GAIN A COMPETITIVE EDGE WITH UNIVOIP AND SERVICE CONTROL

With Service Control, your customers will save time and increase productivity. Get a demo or schedule a call by contacting us to learn more!
